

# NEISS

## GUTSWEIN

## RIESLING TROCKEN

*Recommended serving temperature: 7°C (45° F)*

## VARIETY

Riesling represents 20% of all plantings in Germany, making it the country's most popular grape variety. 5,000 ha of those vines can be found in the Pfalz alone. Because of its remarkable capacity for reflecting the soil and climate, Riesling is regarded as an exceptional terroir wine. The late-ripening variety is marked with a distinctive high acidity, making it fantastically suited to the late autumn sun and long hang times of the "cool climate" northern Pfalz.

## VINIFICATION

This Riesling blend is sourced with fruit from different sites and fermented under controlled conditions in stainless steel tanks.

## TASTING NOTES

Classic Riesling characteristics with racy acidity and notable minerality. Elegant nuances of grapefruit and lemon mingle with notes of freshly cut grass.
