

NEISS

ABOUT OUR SINGLE VINEYARD WINES

In the Bockenheim district, we cultivate sites on the Schlossberg, Heiligenkirche, Sonnenberg and Vogelsang. In Kindenheim, our wines are grown on the Katzenstein, Burgweg and Vogelsang sites.

The soils of these Bockenheim and Kindenheim sites are all characterized by plentiful nutrients and a high limestone content. The prevalent cool climate of the northern Pfalz promotes longer ripening in the grapes; together with the mineral soil structure, it enhances the expressiveness of our wines. These are powerful bottles of elegant acidity and a nimble palate.

Across our portfolio, from the vineyard to the cellar, we believe in doing the work ourselves and by hand. That's why our hand harvest and grape selection are just as important to us as continual canopy management and vine pruning. Our grapes are our greatest treasure, and it's up to us to treat them as gently as possible. In the cellar, we use gravity to avoid the need to pump the wine from the press. We then indulge the wines with a slow, extended maceration that encourages them to develop their best aromatics. The cold soak applied to both white and red wines is another integral part of our gentle vinification.

NEISS

LAGENWEIN (SINGLE SITE)

**VINEYARD: BOCKENHEIMER
SCHLOSSBERG**

CABERNET FRANC

Recommended serving temperature: 16°C (61° F)

VARIETY

At home in Bordeaux for centuries, Cabernet Franc is one of the oldest known grape varieties and is considered to be the parent of the better known Cabernet Sauvignon. It is a variety that welcomes cooler climates, and is frequently used in blends. In the Loire region, however, there are many varietal Cabernet Franc bottles. Cabernet Franc delivers its finest expression in slightly clayey limestone soils.

VINEYARD NOTES

The southeast-facing Sonnenberg sits above the town of Bockenheimer on highly calcareous soils with clayey veins. The mineral strength of these soils lends itself to wines of structure, power and a lush, complex palate.

VINIFICATION

Cabernet Franc grapes are harvested by hand, with yields reduced to 3000l wine per hectare. The wines are matured for 18 months in barrique.

TASTING NOTES

Elegant tannins, notes of soft raspberry, black currant and nuances of pepper. Rich aromas and flavors.
