## ABOUT OUR PREMIUM WINES

Our best wines grow exclusively in the Glockenspiel and Burgweg sites. The singular composition of soil, slope, microclimate and vine selection come together with countless other individual factors to form the foundation for a grand wine. Made by hand in harmony with nature: that is what defines the character of our premium bottles.

Across our portfolio, from the vineyard to the cellar, we believe in doing the work ourselves and by hand. That's why hand harvest and grape selection is just as important to us as continual canopy management and vine pruning. Our grapes are our greatest treasure, and it's up to us to treat them as gently as possible. In the cellar, we use gravity to avoid the need to pump the wine from the press. We then indulge the wines with a slow, extended maceration that encourages them to develop their best aromatics. The cold soak applied to both white and red wines is another integral part of our gentle vinification.
